REPORT TO CONGRESS ON DEPARTMENT OF DEFENSE FISCAL YEAR 2016 PURCHASES FROM FOREIGN ENTITIES

Office of the Under Secretary of Defense for Acquisition, Technology, and Logistics

June 2017

The estimated cost of report or study for the Department of Defense is approximately \$9,600 for the 2016 Fiscal Year. This includes \$9,600 in DoD labor.

Cost estimate generated on June 7, 2017 RefID: 0-2550746

Background

Section 8305 of title 41 United States Code (USC) and Section 8028(b) of the Consolidated Appropriations Act, 2016, require the Department of Defense (DoD) to submit to Congress a report on the amount of DoD purchases from foreign entities in that fiscal year. The Secretary is also required to identify the dollar value of items for which the Buy American Act (BAA) was waived pursuant to any reciprocal defense procurement Memorandum of Understanding (MOU), between the United States and a foreign country pursuant to which the Secretary of Defense has prospectively waived the BAA for certain products in that country, the Trade Agreement Act (TAA) of 1979 (title 19, U.S.C., section 2501 et seq.), or any international agreement to which the United States is a party. The Joint Explanatory Statement to accompany the National Defense Authorization Act for Fiscal Year (FY) 2016 (Public Law 114-92), pages 727-728, also requests that the Secretary of Defense submit a report listing specific procurements by DoD in FY 2016 of articles, materials, or supplies valued greater than \$5.0 million, using the exception under section 8302(a)(2)(A) of title 41, United States Code, relating to articles, materials, and supplies for use outside the United States. The conferees note the report may be submitted as part of the reporting requirement in section 8305 of title 41. The Department is submitting a combined report to fulfill these three reporting requirements.

Discussion

The information contained in this report is based on FY 2016 contract data from the Federal Procurement Data System – Next Generation (FPDS-NG). The FPDS-NG data addresses contracting procedures, competition, financing, statutory requirements, socioeconomic programs, and other information relating to DoD contracting activity with prime contractors. The data was then certified by the Military Departments and Defense Agencies.

All procurements from foreign entities

DoD procurement actions recorded and certified in FPDS-NG during FY 2016 totaled approximately \$298 billion. Of that amount, approximately \$10.7 billion or 3.6 percent of total DoD obligations were expended on purchases from foreign entities. Table 1 highlights the twelve (12) countries with the highest amount of contract obligations. These countries accounted for approximately 81 percent of the total DoD foreign obligations during FY 2016. A detailed breakout of obligated dollars by country in the alphabetic order is contained in Table 2.

TABLE 1: Top twelve countries with the highest contract obligations under contract with DoD during FY 2016

The \$10.7 billion of obligations cover services, petroleum, construction, subsistence, defense equipment, and other miscellaneous items. Chart 1 provides a breakout of procurement categories from the foreign entities. Petroleum, services, construction, and subsistence account for approximately 77 percent of the total purchases from foreign entities. Defense equipment constitutes approximately 15 percent of the purchases from foreign entities. The remaining 8 percent of the purchases cover a variety of categories.

Dollar value of manufactured articles for which the restrictions of the BAA were not applied pursuant to MOUs, the TAA, or other international agreements

The restrictions of the BAA were not applied to 70,334 DoD purchases totaling approximately \$5 billion due to inapplicability, waivers, and authorized exceptions. The breakout of these purchases is as follows:

- About 65 percent of purchases or 44,503 actions totaling approximately \$3.3 billion represent those contract actions for which the restrictions of the BAA are not applicable because they are for items manufactured and used outside the United States.
- The total authorized *waivers* pursuant to MOUs, the TAA or other international agreements represented 20,126 purchases totaling approximately \$1.3 billion.
- The total authorized exceptions to the BAA represented 5,705 purchases for approximately \$459 million. These exceptions provided in the law include: (1) manufactured outside the United States Resale; (2) manufactured outside the United States Commercial Information Technology; (3) manufactured outside the United States Public Interest Determinations; (4) manufactured outside the United States Determination made based on Domestic Non-Availability; and (5) manufactured outside the United States Unreasonable Cost of Domestic End Product.

Chart 2 provides a breakout of the approximately \$5 billion of manufactured articles for which the restrictions of the BAA were not applied due to waivers, authorized exceptions, and inapplicability.
