Nothing in this Directive prohibits agencies from conducting other legally permissible investigations or inquiries.

This directive also applies to "covered individuals," as defined below, seeking initial or continued eligibility for access to classified information or eligibility to hold a sensitive position.

**D. DEFINITIONS:** As used in this Directive, the following terms have the meanings set forth below:

1. "Agency": Any "executive agency" as defined in 5 U.S.C. §105, the "military departments," as defined in 5 U.S.C. §102, and any other entity within the executive branch that comes into possession of classified national security information or has positions designated as sensitive.

37 2. "Authorized adjudicative agency": An agency authorized by law, executive order, or

40 3. "Authorized investigative agency": An agency authorized by law or regulation to conduct  
41 a counterintelligence investigation or investigation of persons who are proposed for access to  
42 classified information to ascertain whether such persons satisfy the criteria for obtaining and  
43 retaining access to such information.

44 4. "Classified national security information" or "classified information": Information that  
45 has been determined, pursuant to EO 13526, any predecessor or successor order, or the Atomic  
46 Energy Act of 1954, as amended, to require protection against unauthorized disclosure and is  
47 marked to indicate its classified status when in documentary form.

48 5. "Covered individual":

49 a. A person who performs work for or on behalf of the executive branch or who seeks to  
50 perform work for or on behalf of the executive branch, but does not include the President or  
51 (except to the extent otherwise directed by the President) employees of the President under 3  
52 U.S.C. §105 or §107, the Vice President or (except to the extent otherwise directed by the Vice  
53 President) employees of the Vice President under 3 U.S.C. §106 or annual legislative branch  
54 appropriations acts;

55 b. A person who performs work for or on behalf of a state, local, tribal or private sector  
56 entity, as defined in EO 13549, but does not include duly elected or appointed governors of a  
57 state or territory, or an official who has succeeded to that office under applicable law;

58 c. A person working in or for the legislative or judicial branches and the investigation or  
59 determination is conducted by the executive branch, but does not include Members of Congress;

68 approved by the executive agent.

69 7. "Publicly available social media information": Any electronic social media information  
70 that has been published or broadcast for public consumption, is available on request to the  
71 public, is accessible on-line to the public, is available to the public by subscription or purchase,

<sup>1</sup> As defined in the 2012 Federal Investigative Standards.

73 8. "Reasonably exhaustive efforts": The appropriate level of efforts to resolve issues or  
74 corroborate discrepant information. They may include multiple attempts or techniques to satisfy  
75 the issue, attempts to corroborate the activity through references from the background  
76 investigation, and/or attempts to obtain and pursue additional leads through other aspects of the  
77 investigation.

78 9. "Sensitive position": Any position within or in support of an agency in which the  
79 occupant could bring about, by virtue of the nature of the position, a material adverse effect on  
80 national security regardless of whether the occupant has access to classified information and  
81 regardless of whether the occupant is an employee, military service member, or contractor.

82 10. "Social media": Websites, applications, and web-based tools that allow the creation and  
83 exchange of user generated content. Through social media, people or groups can engage in  
84 dialogue, interact, and create, organize, edit, comment on, combine, and share content.

85 **E. POLICY:** Agencies may choose to collect publicly available social media information in the  
86 personnel security background investigation process, which pertains to the covered individual's  
87 associations, behavior and conduct, as long as the information pertains to the adjudicative  
88 guidelines for making determinations of initial or continued eligibility for access to classified  
89 information or eligibility to hold a sensitive position.

90 1. Authorized investigative agencies may collect, use, and retain publicly available social  
91 media information as part of a covered individual's background investigation and, if collected,  
92 shall incorporate the relevant results in the investigative record. The period of coverage for  
93 publicly available electronic information will be consistent with the scope of the investigation.

94 2. Authorized adjudicative agencies may use and retain publicly available social media  
95 information when determining initial or continued eligibility of a covered individual for access to  
96 classified information or eligibility to hold a sensitive position.

97 3. Collection of publicly available social media information shall only be conducted after  
98 obtaining the signed *Authorization for Release of Information* form of the Standard Form 86,  
99 *Questionnaire for National Security Positions*, which includes notice of the collection of such  
100 information.

101 4. Only publicly available social media information pertaining to the covered individual  
102 under investigation shall intentionally be collected. Absent a national security concern, or  
103 criminal reporting requirement, information pertaining to individuals other than the covered  
104 individual will not be investigated or pursued. Information inadvertently collected relating to  
105 other individuals will not be retained unless that information is relevant to a security  
106 determination of the covered individual.

107 5. Covered individuals shall not be requested or required to:

108 a. Provide passwords;

109 b. Log into a private account; or

110 c. Take any action that would disclose non-publicly available social media information.

111 6. Agencies shall not create accounts or use existing accounts on social media for the  
112 purpose of connecting (e.g., “friend”, “follow”) to a covered individual or enlist the assistance of  
113 a third party in order to bypass privacy controls and/or access otherwise non-publicly available  
114 social media information. Agencies shall not request that a covered individual connect to an  
115 agency account or access their account from an agency system in order to provide access to  
116 information which would otherwise be protected from public view.

117 7. Authorized investigative agencies shall make reasonably exhaustive efforts to verify that  
118 any information collected that is discrepant or potentially disqualifying pertains to the covered  
119 individual. When publicly available social media information pertaining to the covered  
120 individual identifies discrepant information or potentially disqualifying issues relevant to one or  
121 more of the adjudicative guidelines, the investigation shall be expanded to fully resolve all  
122 issues.

123 8. Any potentially disqualifying issue(s) shall be adjudicated using the National Security  
124 Adjudicative Guidelines, reference 3. No unfavorable personnel security actions shall be taken  
125 solely on uncorroborated or unverified discrepant information collected pursuant to this  
126 Directive. When an adjudicative determination is made to deny or revoke eligibility for access to  
127 classified information or eligibility to hold a sensitive position, the covered individual shall be  
128 afforded the review proceedings in EO 12968, as amended, Part 5.

129 9. Agencies that use publicly available social media information pursuant to this policy shall  
130 reciprocally accept existing investigations or adjudications, that otherwise meet requirements for  
131 reciprocity, performed by an agency that does not collect or use publicly available social media  
132 information. The gaining agency may collect social media information on the covered individual  
133 pursuant to this policy.

134 **F. RESPONSIBILITIES:**

135 1. The SecEA is responsible for:

136 a. Development of standard requirements for the collection, use, and retention of  
137 information obtained from social media sources.

139 publicly available social media information are in accordance with this Directive.

142 publicly available social media information.

144 training in the collection, use, and retention of publicly available social media information.

145 2. Heads of Agencies shall:

146 a. Inform the SecEA of their intent to collect, use, and retain publicly available social  
147 media information in determinations for persons requiring initial or continued eligibility for  
148 access to classified information or eligibility to hold a sensitive position.

149 b. Ensure that agency policies and procedures governing the collection, use, and  
150 retention of publicly available social media information are in accordance with all applicable  
151 laws, executive orders, and implementing guidance, and include appropriate protections for  
152 privacy and civil liberties, including any necessary changes to documentation required by  
153 applicable law (e.g., Privacy Impact Assessments required by the E-government Act or System  
154 of Records Notices required by the Privacy Act).

155 c. Ensure that the collection, analysis, reporting, and retrieval of publicly available  
156 social media information are automated to the greatest extent practicable.

157 d. Promptly advise the SecEA of any challenges or impediments to the implementation  
158 of this policy.

159 e. Ensure that authorized investigative and adjudicative personnel are provided training  
160 on the collection, use, and retention of publicly available social media information governed by  
161 this policy.

162 f. Act upon and share relevant information of a security, counterintelligence (CI), or law  
163 enforcement concern with appropriate security, CI, insider threat, or law enforcement officials.

164 g. Share best practices for more secure, effective, and efficient methods for the  
165 collection and use of publicly available social media information.

166 **G. EFFECTIVE DATE:** This Directive becomes effective on the date of signature.
